FIELD INSPECTION REPORT

| Package No. Status of the Project: Onging/Completed/Under Mainto Work is a case of: New Connectivity/ Up Gradation SI.No Parameters to be Checke 1 Pavement a) Road Junction Condition b) Condition of Surfacing c) Riding Quality d) Road Camber Whether free from defects such as visible cracks, experced CC Pavement f) Contraction Joints provided or not (CC Pavement) g) Compaction of flank/slpoe & raincuts if any Cross Drainage a) Condition of headwalls inn Humepipe culverts including Condition of Abutment & Wings walls, Slab in RCC of Condition of railings/slabs//approach for Bridges Road Furniture | Maintenance S/U S/U S/U S/U |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Work is a case of: New Connectivity/ Up Gradation Parameters to be Checke Road Junction Condition b) Condition of Surfacing c) Riding Quality d) Road Camber Whether free from defects such as visible cracks, expect CC Pavement f) Contraction Joints provided or not (CC Pavement) g) Compaction of flank/slpoe & raincuts if any Cross Drainage: a) Condition of headwalls inn Humepipe culverts including the Condition of Abutment & Wings walls, Slab in RCC of Condition of railings/slabs//approach for Bridges | Maintenance S/U S/U S/U S/U S/U S/U S/U S/ |
| Parameters to be Checke Pavement a) Road Junction Condition b) Condition of Surfacing c) Riding Quality d) Road Camber Whether free from defects such as visible cracks, experence of CC Pavement f) Contraction Joints provided or not (CC Pavement) g) Compaction of flank/slpoe & raincuts if any Cross Drainage a) Condition of headwalls inn Humepipe culverts including the Condition of Abutment & Wings walls, Slab in RCC of Condition of railings/slabs/approach for Bridges | S/U |
| a) Road Junction Condition b) Condition of Surfacing c) Riding Quality d) Road Camber e) Whether free from defects such as visible cracks, experience CC Pavement f) Contraction Joints provided or not (CC Pavement) g) Compaction of flank/slpoe & raincuts if any Cross Drainage a) Condition of headwalls inn Humepipe culverts including Condition of Abutment & Wings walls, Slab in RCC of Condition of railings/slabs//approach for Bridges | S/U S/U S/U S/U S/U Yes/No |
| a) Road Junction Condition b) Condition of Surfacing c) Riding Quality d) Road Camber e) Whether free from defects such as visible cracks, experced CC Pavement f) Contraction Joints provided or not (CC Pavement) g) Compaction of flank/slpoe & raincuts if any Cross Drainage a) Condition of headwalls inn Humepipe culverts including Condition of Abutment & Wings walls, Slab in RCC condition of railings/slabs//approach for Bridges | S/U. S/U S/U S/U S/U Yes/No |
| b) Condition of Surfacing c) Riding Quality d) Road Camber Whether free from defects such as visible cracks, exported CC Pavement f) Contraction Joints provided or not (CC Pavement) g) Compaction of flank/slpoe & raincuts if any Cross Drainage a) Condition of headwalls inn Humepipe culverts including Condition of Abutment & Wings walls, Slab in RCC of Condition of railings/slabs//approach for Bridges | S/U. S/U S/U S/U S/U Yes/No |
| c) Riding Quality d) Road Camber Whether free from defects such as visible cracks, export CC Pavement f) Contraction Joints provided or not (CC Pavement) g) Compaction of flank/slpoe & raincuts if any Cross Drainage a) Condition of headwalls inn Humepipe culverts including Condition of Abutment & Wings walls, Slab in RCC of Condition of railings/slabs//approach for Bridges | S/U S/U Sed aggregates in case of Yes/No |
| d) Road Camber Whether free from defects such as visible cracks, exponent (CC Pavement) Contraction Joints provided or not (CC Pavement) Compaction of flank/slpoe & raincuts if any Cross Drainage a) Condition of headwalls inn Humepipe culverts includi (Condition of Abutment & Wings walls, Slab in RCC of Condition of railings/slabs//approach for Bridges) | sed aggregates in case of Yes/No. |
| e) Whether free from defects such as visible cracks, experience CC Pavement f) Contraction Joints provided or not (CC Pavement) g) Compaction of flank/slpoe & raincuts if any 2 Cross Drainage a) Condition of headwalls inn Humepipe culverts includi b) Condition of Abutment & Wings walls, Slab in RCC c c) Condition of railings/slabs//approach for Bridges | sed aggregates in case of Yes/No |
| c) CC Pavement f) Contraction Joints provided or not (CC Pavement) g) Compaction of flank/slpoe & raincuts if any 2 Cross Drainage a) Condition of headwalls inn Humepipe culverts includi b) Condition of Abutment & Wings walls, Slab in RCC of c) Condition of railings/slabs//approach for Bridges | Yes/No |
| g) Compaction of flank/slpoe & raincuts if any 2 Cross Drainage a) Condition of headwalls inn Humepipe culverts includi b) Condition of Abutment & Wings walls, Slab in RCC c c) Condition of railings/slabs//approach for Bridges | The state of the s |
| Cross Drainage Condition of headwalls inn Humepipe culverts includi Condition of Abutment & Wings walls, Slab in RCC c Condition of railings/slabs//approach for Bridges | Yes/No |
| a) Condition of headwalls inn Humepipe culverts includi b) Condition of Abutment & Wings walls, Slab in RCC o c) Condition of railings/slabs//approach for Bridges | Yes/No |
| Condition of Abutment & Wings walls, Slab in RCC c Condition of railings/slabs//approach for Bridges | SI BURE SEE TO SEE |
| c) Condition of railings/slabs//approach for Bridges | ng its painting \$/SRI/U |
| | ulverts S/SRI/U |
| 3 Road Furniture | S/SRI/U |
| POLICE CONTRACTOR AND PROPERTY OF THE PROPERTY | |
| Whether sign boards/informatory/cautionary Board/Ki road markings are provided and maintained. | n & 200m stone/ Pavement Yes/No |
