## Measurement Book

1397

Aggr. No- 05 SABD of 2019-20

| Particulars                                                         | Details of actual measurement |    |    |    | Contents of area |
|---------------------------------------------------------------------|-------------------------------|----|----|----|------------------|
|                                                                     | No.                           | L. | B. | D. |                  |
| <del>Repair</del><br>(2) <del>Consolidation</del> of worn<br>Gravel |                               |    |    |    |                  |
| ① preceding and applying<br>primer coat with bitumen<br>emulsion.   |                               |    |    |    |                  |
| $1 \times 30m \times \frac{7.20 + 3.90}{2} = 166.50m^2$             |                               |    |    |    |                  |
| $2 \times 30m \times \frac{3.90 + 4.0}{2} = 237.00m^2$              |                               |    |    |    |                  |
| $2 \times 30m \times \frac{4.0 + 4.0}{2} = 240.00m^2$               |                               |    |    |    |                  |

|                                                              |  |  |  |  |                       |
|--------------------------------------------------------------|--|--|--|--|-----------------------|
| $2 \times 30m \times \frac{4.0 + 3.90}{2} = 237.00m^2$       |  |  |  |  |                       |
| $2 \times 30m \times \frac{3.90 + 3.75}{2} = 229.50m^2$      |  |  |  |  |                       |
| $1 \times 30m \times \frac{3.75 + 5.0 + 4.0}{3} = 127.50m^2$ |  |  |  |  |                       |
| $6 \times 30m \times \frac{3.75 + 3.75}{2} = 675.00m^2$      |  |  |  |  |                       |
| $3 \times 30m \times \frac{3.75 + 3.80}{2} = 339.75m^2$      |  |  |  |  |                       |
| $1 \times 30m \times \frac{3.80 + 3.70}{2} = 112.50m^2$      |  |  |  |  |                       |
| $2 \times 30m \times \frac{3.70 + 3.80}{2} = 225.00m^2$      |  |  |  |  |                       |
| $3 \times 30m \times \frac{3.80 + 3.75}{2} = 339.75m^2$      |  |  |  |  |                       |
|                                                              |  |  |  |  | 2929.50m <sup>2</sup> |
