Section Warranty for Road Projects -

It is hereby agreed that as of the inception date of the policy, the following condition shall apply

A road project is deemed to be not completed until the asphalt or concrete course has been laid. It is understood that road shall include all types of roads including but not limiting to motorways and highways.

In respect of road construction, the combined maximum length of excavation work, subgrade and sub-base courses not covered by a waterproof wearing course shall not exceed any one of the following at any one time.

a. 1000 meters X 3 unconnected sections for flood prone area and hilly regions for every stretch up to 25 km of the project subject to the total length of the section opened for works at any time not exceed 12% of the total road length of the project. However, at any point of time any two sections should be separated by a minimum distance of 250 meters.

b. 1000 meters X 5 unconnected sections for other areas for every stretch up to 25 km of the project subject to the total length of the section opened for works at any time not exceed 20% of the total road length of the project. However, at any point of time any two sections should be separated by a minimum distance of 500 meters.

c. 150 meters X 3 unconnected sections for internal and access roads of hydel power projects and any two unconnected sections separated by a distance of 50 meters from each other.
