## Sch. XLV-Form No. 134

| Particulars                              | Details of actual measurement |    |    |    | Contents of area |
|------------------------------------------|-------------------------------|----|----|----|------------------|
|                                          | No.                           | L. | B. | D. |                  |
| 2nd year maint Bill                      |                               |    |    |    |                  |
| Name of work - maintenance of            |                               |    |    |    |                  |
| road Madhesra to Koon-tola               |                               |    |    |    |                  |
| Under Sonbaga Block in                   |                               |    |    |    |                  |
| Satamashi Distt. Mahesha (SC)            |                               |    |    |    |                  |
| Name of agreement No. - 9K S.D. of 19-20 |                               |    |    |    |                  |
| Name of Cont. - Sh. Kishu Kumar          |                               |    |    |    |                  |
| Singh - Satamashi                        |                               |    |    |    |                  |
| Date of work start - 11/02/2020          |                               |    |    |    |                  |
| Date of Cont. work - 10/12/2020          |                               |    |    |    |                  |
| Actual work Cont. - 18/01/2021           |                               |    |    |    |                  |

Recon. met.

① Restoration of rain water Bems  
with soil masonry etc

$$3 \times 6.50 \times 0.850 \times 0.30 (a) = 4.9725 \text{ m}^3$$

$$18 \times 0.750 \times 0.30 (a) = 4.05 \text{ m}^3$$

$$15 \times 0.800 \times 0.30 (a) = 3.60 \text{ m}^3$$

$$20 \times 0.775 \times 0.30 (a) = 4.65 \text{ m}^3$$

$$12 \times 0.700 \times 0.30 (a) = 2.52 \text{ m}^3$$

$$14 \times 0.675 \times 0.30 (a) = 2.8875 \text{ m}^3$$

$$10 \times 0.820 \times 0.30 (a) = 2.46 \text{ m}^3$$

$$18 \times 0.725 \times 0.30 (a) = 3.915 \text{ m}^3$$

$$9 \times 0.835 \times 0.30 (a) = 2.254 \text{ m}^3$$

$$\text{Total Qty} = 31.256 \text{ m}^3$$
